

Constructive and Destructive Forces WebQuest

ASK

Think about ways you could prevent a natural disaster, protect the environment, repair the environment, save lifes...

What are the problems that you identified? Can your group think of a way to solve any of the problems? Use pictures and words to organize your thoughts.

Role/Name	Problem	Possible Solution	Possible Solution
Geologist			
Seismologist			
Conservationist			

As a team, choose the a problem and how you believe you can solve it from the chart.
